INDUSTRIAL NOTES.

THE ALLIANCE MACHINE CO. and the Morgan Engineering Co., of Alliance, O., have placed orders with the Westinghouse companies for a total of 120 crane motors, with an aggregate of 2,000 HP. They vary in size from 1 to 100 HP. The Pennsylvania R. R. Co. on the same day contracted for 20 induction motors to be added to the present motor equipment, and the Bethlehem Steel Co. entered an order for direct-current motors to be used in its mills.

THE INGERSOLL-SERGEANT DRILL CO., N. Y., reports that the contract for the compressed air power plant, to be used in driving the second pair of trolley tunnels under the Hudson River, has been awarded to it. This company has furnished all the compressors for subaqueous tunnel work in N. Y. and vicinity. These tunnels, which are popularly known as the Cortlandt St. Tunnels, for the reason that their N. Y. terminal will be located on that street, are to be built by the Hudson companies, of which Chas. M. Jacobs is the Ch. Engr. The shield method of subaqueous tunneling will be used. The order includes five duplex air compressors. Three are low pressure Class "H" machines with steam cylinders 14 and 28 ins. in diameter, air cylinders 22½ ins. in diameter and 16-in. stroke, with a maximum air pressure of 50 lbs. per sq. in. and a capacity of 1,850 cu. ft. of free air per minute each. The other two are Class "HC" machines for high pressure, with steam cylinders 14 and 28 ins. in diameter, air cylinder 24¼ and 14¼ ins. in diameter and 16-in stroke, with a maximum pressure [illegible] lbs. per sq. in. and a combined capacity of [illegible] cu. ft. of free air per minute.

THE C. H. WHEELER MFG. CO., succeeding the Wheeler Condenser & Engineering Co., Philadelphia, Pa., announces that Clifton H. Wheeler, the former Manager of the Wheeler Condenser & Engineering Co., New York, is now identified solely with this company. The Company is prepared to furnish surface condensers and accessories for condensing plants, vacuum and circulating pumps, electric or steam driven, cooling towers, geared or steam driven pumping engines and marine evaporating plants for both marine and stationary service, including high grade guarantees for turbine requirements. The company's principal office is in the Drexel Building, Philadelphia, Pa., Ledger Ave. and 18th St., with a branch office in New York, 26 Cortlandt St. Sales offices in Chicago and elsewhere will soon be established. The officers and directors are: John Pitcairn, Pres., Pres. Pittsburg Plate Glass Co., Pittsburg; Geo. Burnham, Jr., Vice-Pres. Baldwin Locomotive Works, Philadelphia; C. H. Wheeler, Secy.; Otto W. Schaum, Works Mgr., Schaum & Uhlinger, Philadelphia; W. H. Rometszki, Treas., Fletcher Works, Philadelphia.
